

## Our Open Desktop Console Solution Designed for Technology-Intense Environments

Evans' Strategy™ console has been specifically designed to meet the needs of your technology-intensive environment. From telecommunication and transportation centers, to process control, to financial trading floors and more, it provides a highly flexible and comfortable ergonomic workspace that allows your users to focus on critical decision-making.

The user-friendly design of the Strategy™ helps improve workplace effectiveness through a number of patented innovations and features. Strategy's™ durable and modular frame structure and aesthetic flexibility ensure it will compliment your facility for years to come. With an efficient and versatile cable-management system that is designed to accommodate technological upgrades, Strategy™ can be easily relocated or reconfigured to suit your changing needs.

By creating such a flexible and functional environment, Evans' Strategy™ is the ideal solution for today's dynamic, technology-driven workplace.

# Design Features

## Modular Structure

Strategy™ offers unmatched flexibility as standard modules can easily be added or relocated as required. Supporting a full range of layouts and room configurations, Strategy™ can be transformed from single to back-to-back, or from an open to enclosed option and allows various module lengths in console to utilize space more effectively.

## Equipment Mounting and Access

Strategy™ easily accommodates computer equipment with a variety of processor shelves, including fixed, slide out, and roll out shelves. Standard front and rear hinged, and optional sliding access doors ensure easy access, while convenient open cable trays allow uninterrupted runs between desks.

## Functional Work Environment

Designed for fast-paced, technologically intense environments, Strategy™ has been ergonomically designed to ensure maximum operator comfort. With options such as adjustable work surfaces, sit-stand and rounded polyurethane nosing, the durable Strategy™ provides ample workspace with a minimum desk footprint.

## Versatile Slat Wall

Fully functional slat wall, in 6" (153mm), 12" (305mm) and 18" (458mm) standard heights, allows for mounting of flat screen monitors and various accessories while effectively hiding cables. Walls can be shared for back-to-back configurations and if required and can also be removed to achieve a fully open-desk concept.

## Contemporary Styling

The open work surface structure provides a clean aesthetic look and Strategy™ is offered in a wide range of durable exterior laminate finishes (with HPL and wood veneer options) to harmonize with any environment.

functional slat wall accommodates single and multi-tiered monitors and accessories

patented ergonomic nosing provides ultimate operator comfort

superior cable management ensures easy equipment maintenance

ability to incorporate storage for any type of equipment
