

COUNTERSMART

CUSTOM COUNTER SOLUTIONS

Custom Counter Solution

Each CounterSMART solution is custom designed and custom manufactured to accommodate the shape, finishes and features that fit your image and technical requirements. Because this solution is completely custom manufactured, we can apply our solution to your existing design, thereby providing the best of both worlds.

Designed to withstand the intense use of demanding environments, the rugged steel frame structure provides unparalleled strength and durability, and lets you expand, relocate or completely makeover your facilities without having to install brand new counters.

Inside the frame structure you'll find ample storage space for your computers and cables, while front-panel access makes it easier than ever to effectively maintain your IT infrastructure.

CounterSMART truly is the most flexible counter solution in the market with high-end custom looks and modular flexibility all rolled into one.

Evans users include:

Bank of America

San Francisco Airport

PRODUCT

Every Counter is a Custom Job

You dream it, we'll build it. You know your processes, your standards, and your image. We know how to build counters that will not only meet your requirements, but exceed your expectations.

Flexible and Durable

CounterSMART™ is designed with a modular steel frame offering unmatched durability. The underlying structure can be reconfigured post-installation, which allows the counters to grow with your facility over the years..

Future Considerations

The unique frame structure allows for cost-effective future re-branding overhauls, which can be achieved overnight by reconfiguring and recladding existing counters. And to take it one step further; CounterSMART can be completely relocated to another facility if required.

ADA Compliant and More Options...

Height adjusting counter for easy wheelchair access, third party equipment integration, bullet resistant accessories, and more.

Healthcare
Nursing Station

Retail Banking
Tellerlines, Dialog Towers, Greeter Stations

Airport
Check-in, Gate Counters, Customs Counters

HIGHLIGHTS OF COUNTERSMART

- 1 Structural Steel Frame:** Our steel modular frame offers unmatched lifetime durability
- 2 PC Storage:** A cavity at the back of the console provides space for PC storage. Hinged doors or sliding compartments provide easy access and more knee space
- 3 Rear access panels** provide easy access to cable management and PC inputs
- 4 Cable management:** Accessible hidden cable management ensures safety, easy maintenance and limited clutter
- 5 Fully functional slat wall:** Allows for mounting of flat screen monitors and various accessories while effectively hiding monitor cables
- 6 Custom Equipment:** Any type of custom equipment can be integrated into the design.
