

# ALARIS TOWER

## THE ULTIMATE CONTROL TOWER CONSOLE SOLUTION

### Surpassing Expectations

Through consultations with select Aviation Agencies and ATC front line experts, Evans has designed Alaris specifically for the demands of the ATC Tower. Designed to fit new or modernized project solutions, the aluminum structure of the console provides the durability required for 24/7 operations. Its innovative design, unbelievable flexibility and unique range of ATC and other mission critical specific features surpass the Air Traffic Control community's highest expectations.

## THE EVANS ADVANTAGE

Over **30 years** of manufacturing experience

Equalling over **9000 successful** installations worldwide

Rich and Diverse **Fortune 500** client list

# ALARIS TOWER - A CLOSER LOOK

## Alaris Tower - Low Profile Console

The latest in console design featuring maximum operator sight lines with maximum utilization of Cab footprint. The console features flexible equipment mounting options with ease of future reconfiguration and ease of equipment access for the controller from a sitting or standing position using electrically actuated positioning mechanisms.

## Alaris Tower – Sit-Stand

An ideal ergonomic solution featuring sit-stand technology allowing the operator full access to their equipment from a sitting or standing position. Each controller position is fully integrated with equipment and is independently adjustable for optimum operating comfort.

## Alaris Tower – Fixed Height, Variable Mounting Rail Console

A conventional console designed for seated controllers with a flexible modular equipment mounting system (Slat Wall). Equipment can be easily mounted on the console and then quickly re-configured, replaced or updated without impact to the console structure and without having to make any modification to the console itself.

GREENGUARD, the most familiar product certification and a globally recognized leader in indoor air quality, has been certifying products since 2001. GREENGUARD is an independent third party certification program that certifies products for low non-toxic emissions. Our furniture is manufactured using recycled and low VOC emitting materials that help our customers meet and exceed environmental standards in their projects. Evans products can offer points towards LEED Certification of your facility.
