NATIONAL COVERAGE

WITH OVER **60 INSTALLERS AND DEALERS** IN THE UNITED STATES, EVANS OFFERS NATIONAL COVERAGE ON ANY OF OUR COUNTER SYSTEMS.

The Patented CounterSMART™ System can be Re-Cladded, Re-Positioned and Re-Configured. This flexible system can grow and adapt with your changing needs. As technology changes and advances, our National support team can help make the necessary changes on-site to accommodate your needs.

COUNTERSMART™ CUSTOMIZED

YOUR COUNTER. YOUR WAY.

This flexible system can grow and adapt with your changing needs and tastes. This Complete Counter System will change with technology trends and advancements with its ability to incorporate all current banking equipment while leaving options for future expansion.

The CounterSMART™ System can be made with almost any combination of materials. Starting with the extruded aluminum frame the exterior cladding can accommodate a wide array of finishes such as high pressure laminate, wood veneer, compact laminate, solid surface (Corian, LG Hi-Macs), stainless steel, granite, engineered stone, polyster, glass, Plexiglas, bullet resistant construction and even fabric. The customizable options are almost endless.

3D VISUALIZATIONS

SEE IT BEFORE IT IS MADE.

Imagine being able to see different product choices, product angles, finish options and more to help you accurately visualize your project before a single piece is fabricated. From counter studio shots, complete branch renderings, or walk-through virtual tours – we have done it all! Our 3D imaging talent is at the cutting edge and we are more than happy to put these skills to work for you.

MILLWORK **VS.** COUNTERSMART™

	MILLWORK	COUNTERSMART™	
PERFORMANCE	DESIGN & CUSTOMIZATION	Customizable	Fully Customizable. Designed and engineered entirely to your specifications
	EQUIPMENT & CABLE MANAGEMENT	Wires are often left dangling under the counter making it easy for tellers to kick / unplug, resulting in an unsafe work environment	Wires and equipment are housed inside the teller line, using integrated cable management channels and equipment mounting systems resulting in tidy and safe counters that are easy to maintain
	ERGONOMICS	Seldom taken into consideration	Proper ergonomics are incorporated from the very beginning of every project, utilizing our in-house ergonomists
	RELOCATION	Due to its built-in nature, millwork cannot be easily moved and re-purposed	Because CounterSMART™ offers a modular design, it can be reconfigured or relocated at any time
	REPAIRS	Due to its fixed nature, millwork is extremely hard to repair. If repairs are possible, they are often very costly	Parts can easily be replaced or repaired in the field without requiring any third party assistance
VALUE	CERTIFICATIONS	Many millwork shops do not have product certifications	CounterSMART™ products are made with FSC Certified Materials, GREENGUARD Certification, LEED Point Contributions
	LOGISTICS	Shops often operate locally and cannot properly support projects outside of a 90-100 Mile radius	Evans ships and install products around the globe daily and can therefore support branches across North America
	PRICING	Millwork shops often operate on a local basis with pricing varying between shops and seasons	CounterSMART™ pricing does not vary based on manufacturing load or seasonal activities
	QUALITY	Often manufactured in smaller shops with plenty of outsourcing, affecting lead times and quality	95% of our components are manufactured in our ISO9001 factory, resulting in greater flexibility, consistent quality and faster production cycles
	WARRANTY	Limited warranty, if any	Lifetime warranty on the frame structure and five (5) years on all other components

FLEXIBLE AND DURABLE

CounterSMART™ is designed with a modular steel frame offering unmatched durability. The underlying structure can be reconfigured post-installation, which allows the counters to grow with your facility over the years.

A CLOSER LOOK

- 1 Steel / Aluminum Frame:** Our modular frame offers unmatched lifetime durability
- 2 PC Storage:** A cavity at the back of the counter provides space for PC storage.
- 3 Rear Access Panels** provide easy access to cable management and PC inputs
- 4 Wire Management:** Accessible hidden cable management ensures safety, easy maintenance and limited clutter
- 5 Fully Functional Slat Wall:** Allows for mounting of flat screen monitors and various accessories to free up desk space while effectively hiding monitor cables
- 6 Custom Equipment:** Any type of custom equipment, such as cash dispensers, are integrated into the design. Future-proofing allows for technology refreshes and equipment upgrades to be easily accommodated

GREENGUARD, the most familiar product certification and a globally recognized leader in indoor air quality, has been certifying products since 2001. GREENGUARD is an independent third party certification program that certifies products for low non-toxic emissions. Our furniture is manufactured using recycled and low emitting materials that help our customers meet and exceed environmental standards in their projects. Evans products can be constructed in such a way that they support the LEED Certification of your facility.

Evans has achieved ISO 9001:2008 registration ensuring that the company meets a consistent quality standard for our control center designs, products and servicing
