

## TECHNOLOGY TABLES

### The Evans Command Center Hub

Technology Tables specifically designed to combine your modern technology with traditional furniture for corporate meetings or intelligence briefings.

### Be Tech Ready In Any Situation

Have the technology and data at your fingertips so your team can deal with situations as they arise. No more fiddling with cables or screens.

### Highest Quality Situation Rooms

Our Technology Tables are built to withstand intensive use including a steel structural frame. All tables are verified on-site to be in working order using Evans Certified Installers.

# Tech Tables Built for *your* Mission Critical Center.

## Custom Designs to Fit your Perfect Shape, Size & Finish

Your situation room or conference room deserves the best. Evans Tech Tables will fit your room and technology perfectly because we build them to your specifications. Choose from multiple worksurfaces, finish options, edge details, and even custom branding on illuminated end panels.

## Work Clutter Free with Cable Management & Technology Storage

Cables are hidden inside the table to keep the surface clean and professional. Store PCs and laptops all within the structure of the tech table. Keyboards, phones, projectors or monitors can also be hidden away neatly.

## Integrate your Technology with Evans Quality

Don't try and fit your technology into an existing table, instead Evans will build a table to fit your requirements. Allow your team to work seamlessly in a professional environment that just works. Pop-up displays with the touch of a button or add dynamic microphones to dial in important individuals. Full integration with ANY technology while meeting requirements for quality, durability, and aesthetics.

## Turning Meeting Rooms into Command Centers
