

# Intensive Use Chairs

**EVANS**  
DESIGNS & EQUIPS MISSION CRITICAL OPERATIONS

## ERGONOMIC SEATING AT ITS BEST

A simple place to sit is not enough for individuals who need support for eight, ten, or even twelve hours a day. Without the proper ergonomic support with their consoles and chairs, users can suffer a variety of ailments ranging from discomfort and pain to full-scale debilitating injuries. Our selection of 24/7 intensive use chairs provides a wide array of style, design and hundreds of fabric and color options.

Each chair is designed with health and comfort in mind. Each chair features fully adjustable lumbar support systems, which supports the vertebral disk in the lumbar region, the pelvis for spinal column balance, and alleviates neck pain. Our select group of chair manufacturers were chosen for their quality and commitment to producing the best 24/7 intensive use chairs in the industry.
